OBJECTIVE:

Talented software developer with expertise in CodeIgniter and React experienced in project maintenance, debugging, and client communication. Seeking to leverage skills in design and development to contribute to innovative projects.

WORK EXPERIENCE:

RIMES - Software Application Developer

August 2023 - Present

- Developed the WDSS website from the ground up using CodeIgniter and LeafletJs, ensuring a robust and user-friendly interface for end-users.
- Integrated weather data seamlessly on maps, enhancing user interaction and data visualization capabilities.
- Implemented automatic message dissemination systems that send timely updates via SMS, Facebook, Twitter, Email and WhatsApp, improving client communication.
- Configured FFTP access to automate the regular reception of files from clients, utilizing cron jobs to streamline and ensure timely data processing.

IZEON: Role: React JS Developer Intern

January 2023 - June 2023

- Developed and styled user interfaces using React.
- Coordinated with clients to meet their requirements.
- Gained strong knowledge of API integration with React.

Vcidex Solution - Jr Software Engineer

June 2022 - Nov 2022

- Customized, implemented, and tested ERP application elements using React.
- Maintained ERP solutions and ensured successful implementation.
- Customized code as needed in Angular.

AGS Health Care - AR Caller

Dec 2020 - Feb 2022

- Handled client escalation accounts and provided timely solutions.
- Identified and executed necessary process adjustments.
- Provided leadership through example and knowledge sharing.

SKILL SUMMARY:

- **Programming Languages:** JavaScript
- **Markup and Styling Languages:** HTML, CSS
- **Frameworks and Libraries:** React, CodeIgniter, LeafletJS, TurfJS, GeoServer
- **Tools:** Git, VS Code
- **Development Skills:** UI Design, API Integration, Debugging, Troubleshooting
- **Soft Skills:** Client Communication, Project Management, Team Collaboration

PRERSONAL PROJECT:

Sheyblog APP:

- This app is to share the knowledge of one particular person who's already a member in this app.
- This allows the user to create, organize, publish written and visual content online in a blog.
- Used MongoDB to capture the user data and blog details, frontend of the application is created using ReactJs framework and backend was designed by NodeJs and ExpressJs framework.
- Used JWT, bcrypt, passport-local for verifying register and login page.
- Used REDUX for content management and data flow concept, also react hot-loader concept.
- Used AXIOS for API side in React
- Used HTTP methods for CRUD operation in ExpressJs/NodeJs part.
- Used MongoDB to store data the users data.

Todo List:

- This Todo List App is to track my day to day work items in an organised way.
- It is completely offline app which is hosted in local.
- The frontend of the application is designed with React, created the app using basic concepts of React hooks and JavaScript ES6 concepts like find, filter, etc.

TECHNICAL SKILLS:

- HTML, CSS, JavaScript, ReactJS, Angular, CodeIgniter (PHP)
- ExpressJS, NodeJS, MongoDB, Postgresql, MySQL
- LeafletJs, TurfJs, Geoserver
- Git, GitHub

EDUCATION:

Panimalar Engineering College CGPA: 6.76

Year of Passing: 2019 , Department: Mechanical

Velammal matriculation & higher secondary school

Percentage: 74.92 , Year of Passing: 2015

Shri Krishnaswamy matriculation & higher secondary school

Percentage: 83.4 , Year of Passing: 2013

CERTICATIONS:

- UI, Angular at FITA Academy
- Web Development Bootcamp at Udemy
- MERN Stack real time Blog-App at Udemy
